

IQHA Ranch Horse Stallion Breeders Futurity & Program
C/O Cassie Winters, Secretary
28339 Aspen Ave.
Volga, Iowa 52077

Dear Stallion Owner,

Welcome! As a member of this amazing, ground breaking program we wanted to share a few things with you as we begin to approach the futurity this fall.

First and foremost, we are thankful and grateful for your participation in this futurity. Without you we would not be where we are as we kick off this program. The futurity is approaching and will be held September 28, 2019. The class list has been included in this packet for your convenience. Entry & stalling forms can be retrieved from the IQHA website, www.iowaquarterhorse.com and will be available at www.ranchiq.com in the near future. The new website, developed and maintained by Hired Hand Software, will help stallion owners, exhibitors and progeny owners seeking out program information for eligible stallions and information. Please also check out our Facebook page, IQHA Ranch Horse Stallion Breeders Program and Futurity. As always, several of the committee members are only a phone call away to help answer any questions or concerns you may have.

If you would like to or know of someone who would like to take part as a sponsor of our show a sponsorship form has been included or can be accessed from the IQHA website. We would welcome all support being offered.

We are also offering a free opportunity to you to send a photo of your stallion to show off during the futurity located on the mezzanine in the Jacobson Building. Please reach out to Niome Zeisneiss at 515-460-4746 to coordinate.

Attached is a list of stallions that are part of this inaugural year. You are in good company and we are thrilled to offer this opportunity. Our mission and vision was to offer all ranch horse stallion owners progeny an opportunity to exhibit. We hope to see you this fall! Please get in touch with Cassie Winters, Secretary, with any questions you may have by calling 563-379-6435 or Shane Vaughan, Committee Chair, 940-765-7177.

Sincerely,

IQHA Ranch Horse Stallion Breeders Futurity & Program Committee.
